Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative argued last limitation of claim 12 recites "indications" for each one of the PCBs are transferred to and used by each one of the other PCBs. Examiner does not agree, the claims language does support just this narrow interpretation. The claim limitation requires only that the "indications" are transmitted via logical signals "for" the PCBs, which simply means the logical signals represent something about the PCBs, not that the logical signals are further used by the PCBs.
